18-11-1920. The Jersey Cattle Breeders' Society of South Africa (JCBS of SA) was established in Pietermaritzburg with its main objective to encourage Jersey breeding in South Africa and "to maintain unimpaired the purity of the breed". The Reverend James Scott was elected the Society's first President and J.H. Sutherland its honorary Secretary and Treasurer for a short period until 8-7-1921 when R.H. Mason took over the latter's position. There were 14 interested people present at the inaugural meeting of the Society.
